Rail Compliance & Fleet Management Services

A Smarter Way to Manage Railcars—Together.

Who We Are

Your End-to-End Rail Partners

At A. Stucki and RAS Data Services, we combine over 40 years of regulatory expertise with proven fleet management proficiency to deliver unmatched railcar compliance, efficiency, and performance.

Through hands-on technical consulting, audits, NDT, inspections, and web-based management tools, we empower rail operators, shippers, and repair facilities to maintain full compliance, reduce costs, maximize utilization, and simplify operations—all backed by responsive, unbiased service.

Shaping smarter, safer, more reliable rail services together.
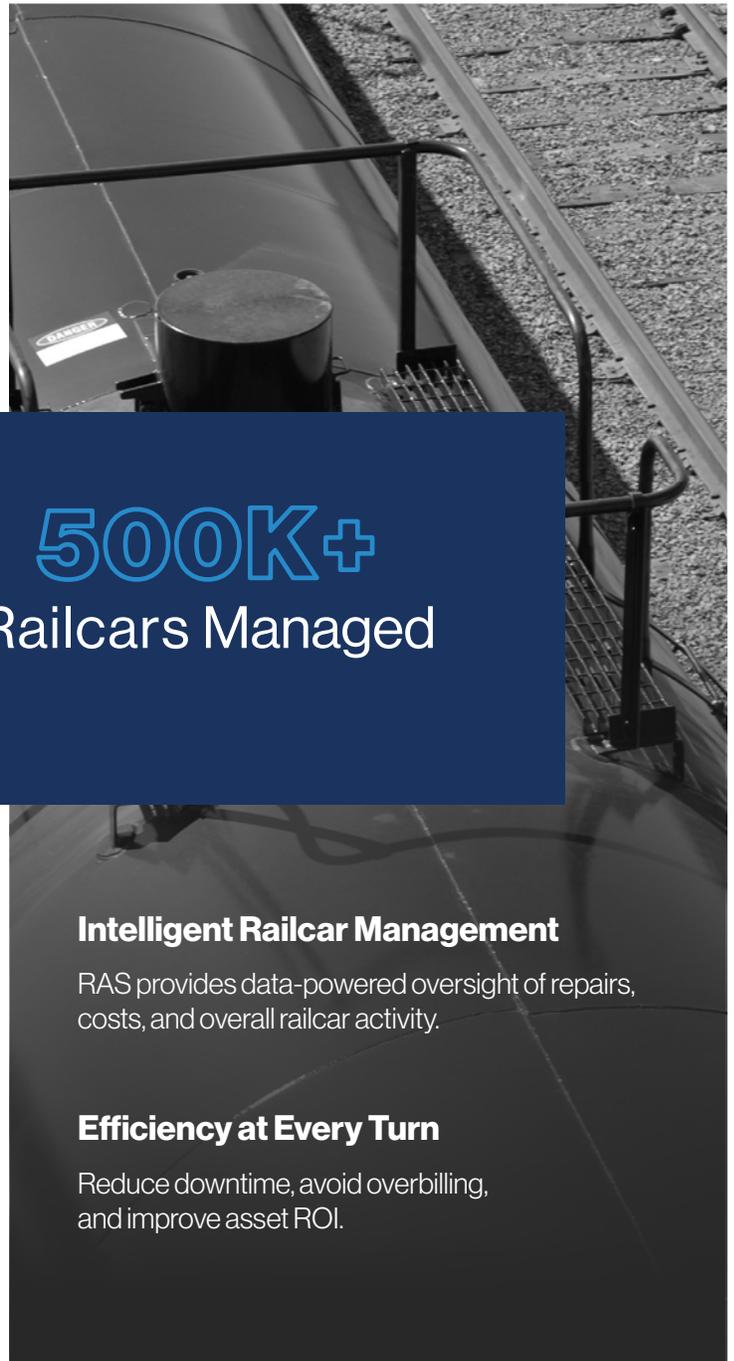

40+
Years Compliance Expertise

500K+
Railcars Managed

Hands-On Regulatory Support

From shop floor audits to hazmat training, Stucki delivers real-world compliance leadership.

Neutral, Unbiased Expertise

No Class I alliances or shop partnerships —just clear, honest support.

Intelligent Railcar Management

RAS provides data-powered oversight of repairs, costs, and overall railcar activity.

Efficiency at Every Turn

Reduce downtime, avoid overbilling, and improve asset ROI.

Compliance & Engineering Services

Technical Expertise that Keeps You on Track.

Data Analysis

Analysis of fleet and component inspection data to establish and validate inspection intervals, including requirements specific to lining and coating owners.

Railcar Design & Modification

From conversions to new builds, we support safe, standards-based engineering that meets FRA and AAR regulations.

Lean Manufacturing Support

CAD-based design services optimized for fabrication, production efficiency, and long-term durability.

Hazardous Materials & Brake System Training

Instructor-led training to ensure your operators meet DOT and AAR compliance requirements.

Leasing of Qualification and Maintenance Programs & Procedures

Development of Ready To Load (RTL) Specifications for each fleet or commodity type.

Failure & Root Cause Analysis

Expert diagnosis of mechanical, corrosion, or operational failures with clear corrective action guidance.

Welding & Metallurgical Services

Procedure development, training, and certification support across AWS, ASME, and AAR requirements.

R&D and Product Innovation

Partner with Stucki to develop new components, validate performance, or address unique field challenges.

Stucki delivers deep engineering, inspection, and training services that help your team maintain full compliance without sacrificing productivity.

Fleet Management Services

Smart Railcar Management—From Invoice to Insight

RAS delivers modern tools and services that help car owners control costs, eliminate billing errors, and increase asset performance.

AAR Repair Billing Oversight

Every invoice is audited for compliance with AAR billing standards. We identify overbilling, unnecessary repairs, and other discrepancies to ensure our clients only pay what is allowable by the rules, saving money in the long run.

Repair Shop Oversight

RAS approves estimates, monitors progress, and helps select shops based on cost, quality, and turnaround time.

Damaged Equipment & Claims Handling

Our experts manage DDCTS alerts, validate damages, and file charges to responsible parties—protecting your investment.

Mileage, Tax, Umler & OT-57

Complete tracking of car mileage, ad valorem tax verification, and Railinc system updates including Umler & OT-57.

Custom Monthly Reports

Insightful summaries tailored to your fleet by car type, shop, manufacturer, region and more—helping you take action faster.

Why This Partnership Works

A Unified Solution for Modern Rail Operations

Together, Stucki and RAS deliver a powerful combination of technical depth and data agility. You get expert-led consulting and compliance strategy alongside real-time tracking and audit automation—without bias or conflicting interests.

Unbiased Support

No Class I or shop affiliations, your interests always come first.

Always Available

24/7/365 customer support teams ready to respond.

End-to-End Integration

Design, inspect, repair, report, and audit, everything in one place.

Built Around You

Customized reporting, flexible engagement, and scalable support.

The result?

Fewer surprises, faster decisions, and smarter compliance.

Let's Move Your Fleet Forward

Whether you need regulatory support, inspection services, or repair billing clarity, our team is ready to help. Partner with Stucki and RAS to improve railcar performance from every angle.
