

Corrosion Resistant Fittings

TANK TRAILER

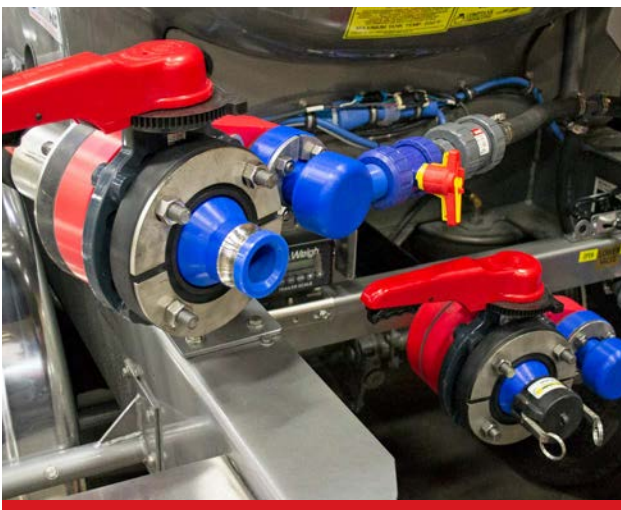

Designed specifically for the transfer of corrosive liquids and vapors, the UHMWPE Hazarsolve® product line allows for superior performance in a variety of applications.

CUSTOMER BENEFITS

- Lightweight UHMWPE
- Abrasion and corrosion resistant
- Available in a variety of sizes
- Better gasket seating
- Low maintenance
- High break property

TIRED OF BROKEN POLY HOSE FITTINGS?

If you want confidence when transferring product, check out Salco's extensive line of UHMWPE hose fittings. We have turned skeptics into believers with the only fittings in the industry to be made with no break properties. Improve process efficiency with the ability to crimp without fear of shattering, and safely transfer in the most extreme temperatures.
