

# CRUDE OIL / ETHANOL PRODUCTS

Commodity specific components that promote safe, efficient and cost effective transportation of your commodity.

# DESIGN TO DESTINATION

Experienced and reliable, Salco Products has been providing customized solutions for the transportation industry for over 30 years. Our commodity specific components, proficient engineering team and customized technical consulting services promote safe, efficient and cost effective transportation of your commodity from design to destination.

## **Top Unloading**

Quickly and efficiently unload product with threaded or flanged quick disconnect fittings for air and product lines.

## **Safeguard™ BOV Handle Extension**

DOT-117 compliant design keeps the handle and valve disengaged during transit preventing unintended actuation.

## **Apollo Product Valves**

Made in America, these AAR approved valves feature corrosion-resistant bodies and internal components that provide an extended service life.

## **Girard Pressure Relief Valves**

Salco offers Girard pressure relief valves with a variety of flow ratings to meet the new regulations.

## **Technical Consulting Services**

Delivering highly technical, compliance-based services to our transportation partners. Find out more by visiting our Technical Consulting Services page: [www.salcoproducts.com/TCS](http://www.salcoproducts.com/TCS)

Quality Assurance

Compliance Services

NDT and Welding

## Manway Arrangement

Quality components that promote proper securement and reduce the risk of non-accidental releases (NAR's).

## Vacuum Relief Valves

AAR approved threaded and flanged styles available with additional options such as filter screen and tamper evident cap.

## Accessories

Key components that allow for secure transit of railcars and aid the loading/unloading process.

### Plug & Chain Assemblies

### Unloading Elbows

## Bottom Unloading

Quick disconnect unloading adapters, nozzles and ergonomically friendly bottom outlet caps provide a secure fit that will minimize leaks and spills.
