

Sampling Devices

TANK TRAILER

Developed for sampling aggressive liquids, such as acids and chlor-alkalis, our corrosion resistant equipment makes acquiring samples safe and easy.

5-Foot Sampling Stick
Part Number: HS34STK

*Part numbers referenced are for images shown.
Additional configurations are available.

Sampling Pump
Part Number: HSSD1X14PV1

FEATURES & BENEFITS

- Allows for taking spill-free samples
- Constructed of corrosion resistant materials
- Sample Sticks available in 5, 6, 10 and 13 foot lengths
- Clear tube allows operator to visually see samples
- Sample Stick can also transport withdrawn sample

SAMPLING PUMP

Allows for a spill-free sample to be taken at the product line without the need to open the top of container system. The hand operated plunger allows for a spill free transfer from tank to sample bottle. Constructed of PVC, this user-friendly device can also be mounted unto any of our parallel instrument tees for sample draw applications.

SAMPLING STICKS

Used for retrieving product sample, our user-friendly sample stick also has the ability to transport withdrawn sample. It is constructed of clear PVC, corrosion resistant, lightweight, and low maintenance. The sample stick utilizes a ball valve and one way flow check valve.
