

# Truck Manway Assemblies

TANK TRAILER

Salco's manway assemblies for DOT 407 & 412 trailers are built for durability and superior performance. With UHMWPE lined plates and Kynar-coated carbon steel reinforcement, they resist corrosion, spills, and vapor exposure.

**20-Inch Manway Assembly**

Part Number: HSFPTT2004DFUHA01

## FEATURES & BENEFITS

- UHMWPE on all wetted surfaces for corrosion resistance; Kynar-coated carbon steel for spill and vapor protection
- Usable in open or closed-loop systems
- Available in 18" and 20" ANSI flanges
- Multiple manway layouts available
- Exceeds DOT 178.345-5 pressure requirements
- Serrated sealing surfaces ensure a leak-free seal
- UHMWPE allows higher compression/torque than rubber linings
- Coating can be spark tested up to 2000v
- Bolting patterns fit FRP and standard 18" ANSI flanged steel rubber-lined trailers

## 3 AVAILABLE BOLTING PATTERNS

22" Bolt circle (16 - 3/4" Bolt holes)

22 3/4" Bolt circle (16 - 3/4" Bolt holes)

25" Bolt circle (20 - 1" Bolt holes)
